ENERGY

WHO WE ARE

Leaders since 2007 in numerous other fields, Gravity Office Solutions has been supplying and installing solar and power backup for many years. We are a company committed to the highest standards of product and service delivery. We place great value on ethical business practices and client satisfaction. With extensive experience and understanding of best practice measures, we offer a hands-on, comprehensive and direct-line approach as a total turnkey energy partner; To ensure effective, comprehensive energy solutions in the ever-changing commercial environment.

VISION AND MISSION

We aim and strive for every sector of the economy in South Africa to experience, enjoy and benefit from our total turnkey managed approach with all its various, diversified products and solutions that we offer. We really do believe in a partnership approach through excellence and proficient consulting, bringing about our desired intention: To enhance quality, service, communication and efficiency with significant cost savings in any environment.

WHAT WE DO

OUR RANGE OF SOLAR
PRODUCTS AND
SOLUTIONS WE OFFER:

SOLAR SYSTEMS

We provide tailored solar energy solutions for commercial and industrial clients, including advanced containerized systems. Our commercial and industrial installations are designed to reduce energy costs and improve efficiency, with options for rooftop, ground-mounted, and high-capacity systems integrated with battery storage and smart energy management. Our containerized solar units offer mobile, plug-and-play power for remote or off-grid locations, fully equipped with solar panels, inverters, and storage in weatherproof enclosures. From design to installation and maintenance, we deliver reliable, turnkey solutions that ensure long-term savings and energy independence.

UPS AND BACKUPS

We offer a wide range of battery, UPS (Uninterruptible Power Supply), and backup power solutions designed for commercial, industrial, and remote applications. Our systems include lithium and advanced lead-acid battery technologies, paired with intelligent inverters, UPS units, and energy management systems to ensure seamless backup during power outages or load shedding. These solutions are scalable to meet various energy demands—from small office setups to large-scale industrial operations—providing critical power continuity and protecting essential equipment from downtime or damage. Whether integrated with solar or as a standalone backup system, our turnkey offerings include design, installation, and ongoing support to ensure reliable, uninterrupted power when it's needed most.

GENERATORS

We provide reliable generator solutions for commercial, industrial, and remote site applications, ensuring continuous power during outages, load shedding, or off-grid operations. Our range of diesel generators are of various capacities, tailored to meet specific energy demands—from small business backups to large-scale industrial systems. These generators can operate as standalone units or be integrated with solar, battery, or UPS systems for hybrid energy setups that optimize fuel efficiency and runtime. With a focus on durability and performance, we offer full turnkey services including system design, installation, automatic changeover integration, and ongoing maintenance to ensure dependable, uninterrupted power when it's needed most.
